

FOREWORD

This pamphlet provides information for U.S. Army Corps of Engineers (USACE) field personnel to assist in organizing and operating a typical Installation Support Program. The pamphlet also serves as a handbook for Army Directorates of Engineering and Housing (DEH) and Air Force Base Civil Engineers (BCE) by providing an overview of typical support services available at their local Corps District, explanations on how to obtain them, and time and cost associated with such services. This pamphlet is issued in various chapters to provide a living reference document in looseleaf format, so that particular portions can be updated at frequent intervals. Also, in this format, the Installation Support Handbook can be easily supplemented by USACE Subordinate Command implementing procedures with direct reference to the applicable sections of this pamphlet. Inquiries concerning the Installation Support Handbook should be addressed to HQUSACE, Attn: CEMP-CI, Construction Division, Installation Support Branch, Washington, D.C. 20314-1000.

H. J. HATCH
Lieutenant General, USA
Chief of Engineers
